This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.

GHOSTLY SUN TRIANGLES

Createspace, United States, 2015. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book ***** Print on Demand *****.Dear Reader, The intention with this chapbook is for others to be able to relate their soul-searching to my own. My journey was rough, strange and beautiful, yet I learned to keep my compass pointed in the direction of centeredness. During my search, I would place myself in between various relationships. In these works, the theme of Triangulation shows up as a representation of this experience. I felt as a messenger, transferring energy from one form to another. Where was the love that was meant for me? Hence, the shadow is one who sees the light of others and the darkness of the self. The book begins with dark themes who gain light through exposure and self-realization of my shadow. I encourage you to find as many symbolic Triangles as you can; count them; and pray the total number is a multiple of three. May these poems evoke acceptance for you; May your mind contemplate truth; and May you not take anything too seriously. Yours, Heather Kipnis.
