SECRET NOT FORGOTTEN: THE DNA OF JESUS; EIGHTEEN MISSING YEARS

World Wide Products, United States, 2012. Paperback. Book Condition: New. 213 x 137 mm. Language: English . Brand New Book ***** Print on Demand *****. My colleague and I inadvertently planted an everlasting seed of doubt in more than half the world's population. How? I am Professor Homer Paulus, the head of the DNA lab at the University of California, Berkeley. We had a bizarre adventure that began a few months ago. This book is based on a very interesting hypothesis about the missing 18 years of Jesus's life, from the age of 12 to 30. Did he spend it all in Nazareth, or did he travel to India and Tibet? The facts of biblical history are intertwined with a good fiction story. It's a mystery wrapped in an enigma and presenting a moral dilemma. Imagine the consequences of finding the DNA of Jesus! It could affect the entire world. Experience the moral dilemma before testing that DNA. Learn the consequences of attempts made to clone Jesus. Will the publicity produce impostors? The author traveled the world for ten years seeking where Jesus visited during his eighteen missing years. This book gives you a timely conversational topic, and some readers believe it will become a movie.
